### THE COTTON MARKET.

NEW YORK, May 11 .- The cotton market opened steady at a decline of 1@6 points, or rather better than due on the indifferent cables, and while showing more or less irregularity during the session, developed a reactionary tone on covering.

The weather continued favorable on the average, but there is still an absence of pisture along the Atlantic coast that may furnish ground for some complaint if unrelieved by rains in the near future, while the bearish look of yesterday's crop report seemed to be checking commission-house buying. Near months shorts were evidently rendered uneasy by further losses from the local stock. Immediately following the opening there was considerable bear pressure from leading room traders, including

On the other hand, there seemed to be a good demand from a certain large Wallstreet operator, who was believed to be covering a line of shorts put out around 14c for July, and going long, and this buying, in connection with the purchases of the local scalping contingent, proved sufficient to absorb offerings and hold the market at about last night's prices until the afternoon, when a wave of New Orleans buying helped the market, and led to a steady close at an advance of 5@10 points, the old crop months leading. Sales were estimated at 100,000 bales.

## LOCAL WHOLESALE TRADE.

Poultry and Other Produce. (Prices Paid by Shippers.)

Cheese-Wisconsin, 13c; New York full creams, 13c; Swiss, 16c; brick, 14c; limburger, 12c. Poultry-Hens, 9c; cocks, 6c, capons, 12c; young ucks, 9c; geese, fc per 15. Butter-Choice roll, 10c; Elgin creamery, 28c; Eggs-Steady at 142111/2c.

### NEW YORK CENTRAL TO MAKE BIG BOND ISSUE

General Opinion that Amount Will Be \$30,000,000, \$25,000,000 to Be Expended for Improvements.

NEW YORK, May 11.-While no official statement was obtainable to-day regarding the proposed New York Central bond issue it was generally accepted that the loan would be for a total of \$30,000,000, of which \$5,000,000 will be used to take up an equal amount of outstanding notes, leaving \$25,-000,000 to be expended on improvements. Definite arrangements are reported to have been made, says the Herald! for the flotation of a loan by the New York Central & Hudson River Railroad Company. It has been generally estimated that the company needed for terminal improvements here and improvements at Syracuse and Buffalo, as well as to provide for the floating indebtedness, the sum of from \$40,-000,000 to \$50,000,000. The loan, as at present arranged for, it is said, will be somewhat less-probably about \$25,000,000.

# WHEAT CONTINUES LOWER

IMPROVED CONDITION OF GROWING GRAIN BEAR NEWS.

At the Close the July Option Showed Loss of 1-2c to 5-Se-Corn, on the Other Hand, Was Strong.

CHICAGO, May 11.-Improvement in con-States and prospects of an enormous yield liquidation of wheat to-day. Final quotations on July show a loss of 1/2%. Corn is up %c. Oats gained %6%c. Provisions vary from a shade higher to loc lower.

opened barely steady, July being a shade higher to %c lower at 85%@86%c. Many traders were apparently of the opinion that the excellent weather of the past ten sequence they were not disposed to buy

On the other hand offerings were rather light, firm cables and small receipts having a tendency to check free selling. Under a fair demand from pit traders a bu. and prices began to decline. ly to reports as to the condition of the crop. A Kansas City dispatch claimed that

altogether too pessimistic. According to a report from Montreal the wheat crop in Manitoba will be the largest in the history of the country, an estimated yield of 80,000,000 bushels being given for that province and the Northwest territories. Influenced by these advices the pit crowd commenced to hammer the market and caused a quick decline. A lot of long wheat came out on the down turn, commission houses selling heavily on stop-loss orders. Before the decline could be checked | cash, \$1.051/4; July, 901/4c. July dropped to 84% 685c. Shorts were fair

Clearances of wheat and flour were equal to 53,400 bu. Primary receipts were 171,200 bu, compared with 215,500 bu a year ago. Minneapolis, Duluth and Chicago reported receipts of 81 cars, against 98 cars last week and 90 cars a year ago. Considering the weakness in wheat the corn market exhibited decided strength. Shorts were active buyers throughout the day, firm cables and a sudden falling off

in receipts being the chief incentives. The strength was more remarkable in view of favorable weather conditions and the bearish tone of crop news. The market closed at about the highest point of the day. July opened a shade to walke higher at 48% 4816c, sold between 4816c and 48164878c. closing at 48%c. Local receipts were 37 cars, one of contract grade.

gent demand for the May delivery from a | common to choice, 13@18c. prominent commission house. Offerings were scarce and the price had to be bid ceipts, 3,211 packages. STEEL ISSUES WEAK AND COMMON SELLS UNDER 10 AGAIN.

Reports of Declining Demand for Iron and Steel Caused Weakness of Steel-Copper Strong.

497,800 Corresponding day last year ...... To corresponding date last year ....

NEW YORK, May 11.-There were periods of to-day's trading that were considerably more active than the recent average, but at intervals the market showed the same profound condition of lethargy that has characterized it for some time. News developments were not lacking, but the response to them was very slight. The government crop report was regarded as decidedly unfavorable in the amount of the probable yield of winter wheat. But 'the showing had been discounted apparently, both in the stock market and in the grain market, neither of which was greatly

Another new development to which general importance is attached, although it has been long expected, is the proposed issue of debenture bonds by the New York Cencredited, although not officially confirmed

The issue of bonds for a moderate term and at a rate of interest above that recently paid by that company was variously interpreted. With both stock and bonds authorized and not issued, it is evidently an admission, in effect, of the possibility of issuing these on favorable terms in the present market. On the other hand the placing of the debenture issue with a syndicate is evi-

dence of some improvement in the absorptive power of the bond market. The constocks, which carried the common stock to 34, a level never before touched. The selling was attributed to feeling on the as a check to any movement that might general outlook in the trade. Reports from the trade were of declining demand for iron and expanding facilities for output by the United States Steel cor-No. 1 California, 7s. Corn-Spot firm; Amer- poration's iron department, with resulting traders as to the disposition that the Govdiscontent by independent producers and ernor might make of the Remsen gas bill. provide consumption for their product. ment. Total engagements for shipment by to-morrow's steamer reached \$9,000,000. This concentrated movement is so little in | tral had authorized an issue of \$30,000,000 accord with the intimations of those having the Panama payment in charge that the transfer would be made gradually and in comparatively small amounts that there was room to question whether the move-

> causes than the Panama payment. While the subtreasury paid out yesterday \$15,000,000 on the Panama canal payment to Morgan & Co., the depositary banks were called upon at the same time to pay over about \$12,500,000 of government deposits, so that there was little net increase in the available supply to provide for today's heavy exports of gold. Call money responded to the heavy inroads upon cash reserves, the rate rising to 2 per cent. The time money market is not day and that was the extreme weakness yet affected. Railroads made further poor returns of earnings. Consolidated Gas

fluctuated under the operations directed against the shorts in the stock. The market closed steady, but not far from the lowest, a rise of 11/2 in Amalgamated Copper helping to steady the close. The bond market became irregular in sympathy with the late weakness in stocks. Total saies, at par value, \$1,845,000. United

### BROKERS' VIEWS ON THE STOCK MARKET

[A. W. Thomson.] NEW YORK, May 11.-The government crop report was not construed to be of a disturbing character to the present values of railroads, but it could hardly be expected to stimulate any particular movements in the stock market to-day, and the trading continued to be largely confined spicuous feature of the day's stock market to the professionals. The weakness in was the seiling of the United States Steel United States Steel issues tended largely to influence bearish sentiment and acted have been intended in other stocks. The sensational movement in Consolidated Gas merely reflected the sentiment of suggestions of plans for steel works to Nine millions of gold were engaged for shipment on Thursday's steamers. This is But by far the most notable development | the largest amount that has been seen in of the day was the enormous gold move- any of the gold export movements for any one day for a number of years past. Announcement was made that New York Cen-4 per cent. debenture bonds for improvements and to pay off \$5,000,000 of floating indebtedness. The steady and persistent selling of United States Steel in the last hour brought about some general realizing throughout the list, with the exception of ment was not in large part due to other Amalgamated Copper, which advanced under buying orders from the Standard Oil interest. The publication by Iron Age on the general condition of the iron and steel trade was looked upon as extremely bearish on steel and iron properties, and no doubt accounts for selling of Steel. [Meyer & Kiser.]

NEW YORK, May 11.-There was at

least one feature to the stock market toof the United States Steel stocks. Both common and preferred were under pressure, and both broke badly. The common sold down to a new low record, and the pre-ferred lost more than two points from Fannie Bruce Boswell et al. to George the high figure of the first hour. The pressure on the common stock seemed to be pronounced, and its resisting power was practically nothing. The selling of the preferred was variously ascribed to certain bearish operators and to insiders. There were no news developements that might be regarded as influencing the trend of the stock. The weakness in the Steel issues was felt throughout the market, and the tone in the afternoon was weak. Record engagements of gold were made to-day, and \$9,000,000 in gold bars will leave this port to-morrow for Paris. This is the largest shipment for one day ever made. The gold goes out on account of the Panama payments, and there is no doubt but that further heavy exports will be made. If the drain continues it is absolutely certain that call rates will stiffen. Formal confirmation of the report that New York Central is about to make a bond issue was obtained to-day. It will issue \$30,000,000 4 per cent. thirtyyear debenture bonds, all of which has been underwritten. Morgan & Co. will head the syndicate. Consolidated Gas was very erratic to-day, advancing sharply and then reacting easily, causing all sorts of rumors as to the possible action of the Governor to be circulated. Amalgamated Copper was one of the strongest stocks throughout the day. The Erie issues and Union Pacific were steady. The total trading during the day was small, and the same duliness prevailed. There was some selling of St. remains unchanged.

Paul, but it was not aggressive. Money [A. R. Thompson & Co.] NEW YORK, May 11.-United States Steel was the feature of the market this afternoon, breaking violently. There were many reasons rumored as the cause, one of which received the most credence, the holdings of Schwab were being liquidated. We are unable to confirm any of the rumors, but it was evident that there was some genuine liquidation. And the same caused a weakening tendency in the general list. Liquida-6014 tion is all that is required to break prices, and if it comes we may look for lower prices. Nine million gold goes out on tomorrow's steamer and later in the week more is expected to be engaged. Wall street is mixed on the crop situation, but the general feeling is expressed that a full tonnage can be expected and that the prospects for the granger roads are lean, and on the whole the situation cannot be said to be in any measure improved, the unfavorable developments far outweighing the
